### **A family adventure**

The region's powerful, magnetic attraction began 400 million years ago with an epic meteorite impact that sculpted one of the most beautiful and unique landscapes in Quebec. It also left behind a particular magnetism and energy where visitors stop, breathe and reawaken their senses. A reconnection worth experiencing.

When you explore the region with your family, you will find something for everyone. Countless activities help create bonding moments and unforgettable memories for young and old alike.
